

INFLATABLE COMFORT
SWING-AIR
IN & OUTDOOR CANTILEVER CHAIR

IT IS POSSIBLE. THAT YOU 'LL
**NEVER WANNA
GET UP AGAIN**

Swing-Air is a modern In & Outdoor Lounge-Cantilever with an outstanding, contemporary and reduced design. It provides maximum comfort and outdoor usability through a combination of air-filled boat fenders, which build the seating area and a high-end cantilever frame made of stainless steel. By regulating the fenders air pressure, one can adjust the degree of hardness reflecting the individual relaxing and sitting habits.

THE LOUNGE-CANTILEVER

Quick-Release seat covers available in different colours complete the product portfolio. The cantilever frame tolerates weights till 175 Kg. It could be easily disassembled and stored or transported space saving together with the deflated fenders. The consistent selection of premium materials and components with a convenient haptic and a high-end-material finish, guarantees an unlimited range of possible usage sites - like beach, terrace, balcony, swimming pool, garden, lobby or just inside your loft or home.
